

COVID Protocols

UPDATED JUNE 22, 2021

COVID 19

The safety of our dancers, staff and dance families is always at the forefront of the guidelines we set forth at All for Dane. We pride ourselves on abiding by standards and implementing strategies to create a safe environment for all families, even the most concerned.

Some resources that we use to create our strategies include:

- State of NJ Department of Health (DOH) Guideline for Youth Sports
- State of NJ Weekly CALI (Covid-19 Activity Level Index) Report
- Robbinsville Department of Health
- CDC Guidelines
- Pediatrician Advice

It is helpful to know that dance is considered a low risk sport. A low risk sport is defined as a sports that can be done individually, do not involve person to-person contact and do not routinely entail individuals interacting within six feet of one another.

Studio

Hand sanitizing stations are located at the entrance and exit of every studio as well as in all lobbies. Dancers sanitize their hands at the beginning and end of each class.

Safety

Social distancing markers are located in our lobbies, hallways and classrooms. There are signs throughout the studio reminding dancers to practice social distancing.

Many steps have been taken to improve air quality. UV lighting has been installed in our HVAC system to help eliminate contaminants. Air purifiers are located in all lobbies and classrooms. Studio doors are left open during class to increase air circulation.

All frequently touched surfaces are cleaned on a regular basis.

Dancers exit through one set of studio doors and exit another to reduce traffic and crowding.

Mask

The CDC and NJ Department of Health continue to strongly encourage the use of masks for unvaccinated individuals.

Guidelines

If your dancer is vaccinated or has natural immunity due to a positive COVID infection within the last 90 days, wearing a mask is no longer required.

All dancers that are not vaccinated are required to wear a mask at this time. We will continue to review mask guidelines regularly and adjust our guidance as the CDC and NJ DOH advise.

Due to health privacy laws, we are not able to ask for or store vaccination or COVID positivity medical information. As a private business, we must rely on the honesty of our clients in this regard.

COVID Protocols

UPDATED JUNE 22, 2021

Health Screening

Parents must complete a health screening of your dancer prior to coming to class and provide confirmation through your parent portal that your health check is complete. The At Home Health Screening includes checking the following:

- **SYMPTOMS:** Have you experienced any of the following symptoms in the past 48 hours: temperature greater than 100.3 F, cough, shortness of breathe, fatigue, body aches, loss of taste or smell, sore throat, nausea or vomiting, diarrhea, congestion not relating to allergies or a headache?
- **CLOSE CONTACT:** For dancers that are not vaccinated or do not have natural immunity in the last 90 days: Have you had close contact to a positive case ?
- **TRAVEL:** For dancers that are not vaccinated or do not have natural immunity in the last 90 days: Have you traveled within the last 7 days to a state outside of those connected to NJ?
- **TESTING:** Are you awaiting test COVID test results?
- **TESTING:** Have you tested positive for COVID in the last 10 days?

If you answer YES to any of our health screening questions, please stay home and consult your doctor for advice on when it is safe to return to dance.

Please be sure to login to your parent portal by 3:30 PM Monday through Friday and 8:00 AM on Saturday to confirm that you have completed your health screening.

Our faculty will confirm the completion of your health screening at the beginning of each class. If a health screening has not been completed, dancers will be asked to wear a mask during class until our front desk staff can reach a parent to complete the screening online.

Lobby Guidelines

The CDC guidelines of 6 ft distancing continue to affect the management of our studio space. The use of our lobby space is needed to safely keep our dancers socially distant before, after and in between classes.

For our 2 year old, 3 year old, 4 year old and 5 year old classes, a parent/guardian is able to come into the studio prior to the start of class to help your child find a socially distant star, change their shoes and enter the classroom. Once class begins, we kindly ask you to wait outside the studio. If your child is having difficulty separating, we will certainly work together with you on a plan until your child feels comfortable.

The front desk is open for questions and payments during our regular business hours. If you are not vaccinated or do not have natural immunity due to a positive COVID infection in the last 90 days, please be sure to wear a mask.
